

The workplace community is a village of people who work together in a cohesive environment, and our Village Systems achieves just that. Village brings a group of kit parts and components to form desking, storage and table solutions that allow staff to work better together and improve productivity. Village is designed to incorporate technology, cable management and a range of accessories to provide a touch down space for the office on-the-go! Personalise this space with the addition of screens and accessories that provide private elements to a community workspace.
